An Introduction to LiDAR for Archaeology

An Introduction to LiDAR for Archaeology 7 down- this can reduce the risk of features being missed if they are located in shaded or brightly-lit areas A variant of this approach is known as the ‘Swiss’ hillshading technique (as it was first developed by cartographers depicting relief in the Swiss Alps), which combines several treatments of the terrain to produce a visualisation that is

An Introduction to Archaeological Report Writing

1 WHY WRITE REPORTS? To fulfil a planning requirement (commercial project) To make the results of your work/research accessible to others To place your results within a wider archaeological and historical context When you submit your report to the Cambridgeshire Historic Environment Record (CHER), the information within it will be added to the HER database, which in turn will add to the

THE ARCHAEOLOGY OF BUILDINGS Introduction

THE ARCHAEOLOGY OF BUILDINGS Alison Sinclair Introduction What is the Archaeology of Building? Relatively little attention was paid in the original Ove Arup Study to the archaeological potential of the secular buildings of York This was in spite of the fact that the City demonstrates in its historic fabric an uninterrupted span of English architectural history, beginning with the tenements at
