Breast Cancer Risk and Prevention

Breast Cancer Risk and Prevention cancerorg | 18002272345 Risk Factors for Breast Cancer A risk factor is anything that increases your chances of getting a disease, such as cancer But having a risk factor, or even many, does not mean that you are sure to get the disease€While you can't change some breast cancer risk factors—family history and aging, for example—there are some

A NOVEL APPROACH FOR LOCAL TREATMENT OF BREAST CANCER

breast[Porter, 1998] ridding the body of this excess of black bile involved venesection, purgation, cupping, leaching, enemas and bizarre diets (many "alternative" treatments of breast cancer to this day are in fact a form of neo-galenism) In the mid 19th Century the humoral theory of breast cancer was overturned by a mechanistic model which

Priorities for the Primary Prevention of Breast Cancer

Breast cancer prevention has received far less attention but holds tremendous promise2 In a discussion of cancer genomics published in Science, Vogelstein et al note, "When we think of cardiovascular or infectious diseases, we first consider ways to prevent them rather than drugs to cure their most advanced forms"3 A similar approach offers substantial hope for reducing the global
