Main Heading Stanton St John Conservation Area Character Study

approved the Character Study and the conservation area extension on the the St John family who held the manor from the 1140s to 1354) and reflects also the number of small quarries and stone pits, which provided sufficient material to build the medieval and early post-medieval village buildings and were also used as lime pits Traces of these pits can still be seen near the ...

The University Church of St Mary the Virgin

The church organises a range of activities on weekdays, especially during the University terms We have held discussion series on themes such as death, the self, sex and work, and these have attracted a range of people, not only from the congregation, and stimulated lively debate The students hold a Bible study group each week in term, and two

Strategic Stone Study - British Geological Survey

XXX Strategic Stone Study 1 Introduction Dorset has a varied geological succession, and this is reflected in its landscape and also in its buildings In the past, the inhabitants of each parish would have used the stone which was closest to them to build their towns, villages, houses and farms Studying these older buildings, therefore, gives a good indication of the range of building ...

VIEWPOINT VHIV 1: (HLA 4A) Hampton Court Palace 1st Floor ...

and soon-to-be Cardinal, Thomas Wolsey, transformed a medieval manor (situated 13 miles southwest of London on the north bank of the River Thames) into a palace deemed superlative by contemporary observers Soon after their accession to the English Throne, King William III and Queen Mary II commissioned Sir Christopher Wren to rebuild Hampton Court William III liked ...
