WHAT DO PEOPLE THINK ABOUT GENE THERAPY?

the case with gene therapy, which has made it difficult to get a clear idea of what public attitudes to altering human genes might be In 1999, the National Centre for Social Research (NatCen) began a major study for the Wellcome Trust that set a new benchmark for understanding what people in the UK thought about gene therapy, and how their attitudes were formed The research was primarily

Welcome! [mccarthytherapy.com]

Beginning therapy means different things to different people, but it is often an action of courage, hope, self-care, and self-determination You might or might not have been to a therapist before If this is your first experience with therapy, you might feel a bit nervous or apprehensive That's normal! Therapy is a process that allows you the freedom and privacy to discuss issues that are
