Iron Age Communities In Britain

Coins and Power in Late Iron Age Britain

His Iron Age Communities in Britain (Cunliffe 1974) became the standard textbook, and with several revised editions still remains the clearest introduction to later prehistoric Britain. He has also excavated many of the sites which are crucial to any discussion of central-southern England. However, over the last few years a critique has developed which has questioned some of the aspects of Cunliffe.

During the Iron Age, communities in Britain lived in large roundhouses, some of which could hold substantial numbers of people. Across most of the country these buildings were built of timber or had low walls of earth and stone. In most cases, two millennia of ploughing have removed all surface traces of these buildings and they can only be found through excavation to reveal their post-holes.
