DAVID DYMOND - jps.library.utoronto.ca

John Sexton lived in the important cloth-manufacturing town of Lavenham in south-west Suffolk He died suddenly in 1557, leaving a nuncupative or spoken will which was written down after the event Though his occupation is not mentioned, he is known to have belonged to a clothmaking family who had lived in the town for several generations' He was certainly wealthier than Bennett Kyng for his

Medieval Hanseatic League

sparked the town's first industrial revolution New factories began to supply English farmers with machinery, artificial manure and animal feed Yet the town grew slowly because it was too remote from the industrial regions; its hinterland remained agricultural when food imports into England from America increased to compete with home farmers Lynn's population was still only 25000 in 1950

Growth and decay during the industrial revolution: The ...

Before the Industrial Revolution, the three counties of Norfolk, Suffolk and Essex had at various times been the scene of important industrial and commercial activity Norwich, as the centre of a great worsted industry, made its influence felt over much of Norfolk and was the third city in the kingdom, second only to London and Bristol, right up to the era of industrialization Further south
